A movie, a dance, a party

Living in a dorm room
Fighting with a roommate

STUDENT GOVERNMENT

The Student Government is the official organ representing the entire student body and has an obligation to serve the student body by representing its student opinions, attitudes, needs, and desires to the proper college authorities. By encompassing a wide variety of interests and activities in its services, the Student Government provides entertainment for students in the form of weekend movies and frequent dances. It offers intellectual stimulation for the more serious student through its lecture series and international film series. The Student Government also operates the T.O.H. and the game room both of which provide hours of leisure time for every campus student. Finally if not for Student Government fees and the allocation of these fees by S.G., many clubs and organizations would be limited in their activities due to lack of funds.

The Sailing Club has not been involved in any regattas as of yet, but it appears that many of the members get their experience with the gusty winds of the Mobile Bay. By next year, Commadore Dan Elcan hopes to have the organization into full swing.

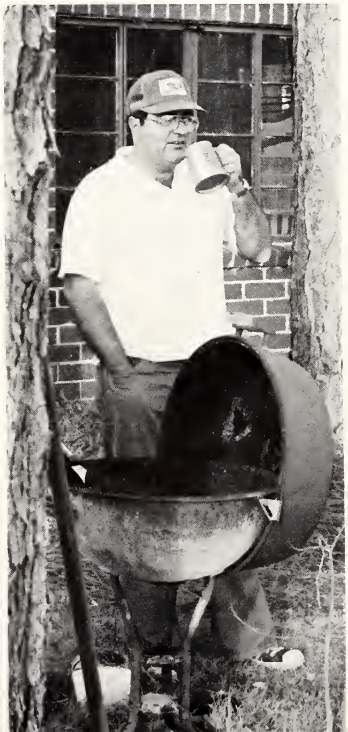
TEACHER OF THE YEAR
DR. JOHN W. KANE

Dr. John W. Kane, Associate Professor of Physics was awarded the Teacher of the year for the academic year 1978-1979. Dr. Kane, as anyone can see from the pictures here, is a family man, a sportsman and a generally fun-loving man. He treats all his students with great respect and consideration, and anyone knowing him would certainly agree that he deserved this award.

Dr. Kane graduated from Spring Hill College and then went on to receive his Ph. D. in Physics from the University of Alabama. He is currently the head of the Science division and a member of the Board of Trustees. As many students will recall, Dr. Kane's pitching brought him to an undefeated spot at the end of the Intramural season. He also claims to be an avid water skier, although no present student has ever witnessed this feat.

To many students Dr. John Kane is affectionately known as "Citizen", but to all students he will always be remembered as an understanding instructor deserving of this award.



PRESIDENT OF THE COLLEGE
FR. PAUL S. TIPTON

Fr. Paul Tipton first came to Spring Hill College in 1972 to take the position of the President of the College. Since then he has worked diligently to make Spring Hill College what it is today. Although many students do not personally know Fr. Tipton, he does frequent many student activities and enjoys the company of students on such occasions as local sailing regattas.

Fr. Tipton is one of the few Jesuits, much less College presidents taking residence in one of the college dormitories, that being the notorious Walsh Hall. Fr. Paul Tipton is loyal to Spring Hill College, its students, faculty and administrators. He is willing to take part in any student activities and shows a great concern for the better education of the Spring Hill College students.

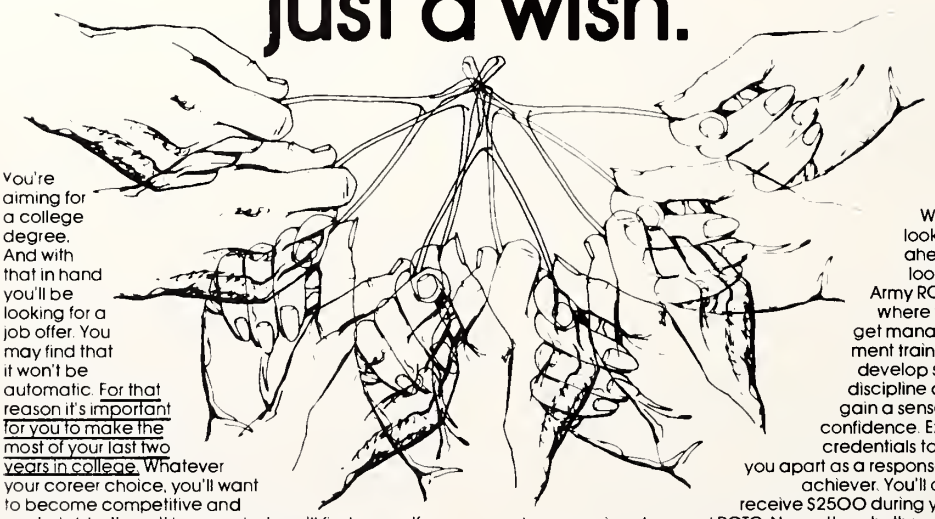
Life After College takes more than just a wish.



You're aiming for a college degree. And with that in hand you'll be looking for a job offer. You may find that it won't be automatic. For that reason it's important for you to make the most of your last two years in college. Whatever your career choice, you'll want to become competitive and marketable. It won't be easy but you'll find yourself better prepared if you look ahead.

While looking ahead, look at Army ROTC, where you get management training, develop self-discipline and gain a sense of confidence. Extra credentials to set you apart as a responsible achiever. You'll also receive $2500 during your two years in advanced ROTC. No matter whether your career plans are civilian or military, Army ROTC provides opportunities for both – active duty with a starting salary of over $11,300, or reserve service while employed in the civilian community. Whatever your college major, there are opportunities for you as an Army officer.

SHC ALPHABET

A is for All-nighters . . .

You begin with enthusiasm, adrenalin, and self determination; the job must be done. It might be a paper, exam, practice set, lab report, or deadline. But IT must be done tonight. So you start the coffee boiling and pop corn machine popping and settle back under the single desk light in the corner of the room. By the middle of the night, your eyes can't stay open any more and your roommate rolls over one more time to tell you to turn out the light or else. When the sun finally comes up, you sigh in relief. As you get up from your desk you notice the calendar and discover that the project wasn't due for another week.

E is for Emergency Exit . . .

No matter what meal you are trying to enjoy in the comfortable cafeteria, some idiot always seems to think its amusing to run out the back emergency door and let the alarm ring for at least a half of a minute.

F is for the Fire Alarm . . .

You've just lathered the soap all over your arms, or maybe you've already hit the sack, but either way, the fire alarm always has a way of ringing through the dorm. The R.A.'s are all yelling at you to get out of the building. So you start down the stairs falling into the stream of grouchy people, but something is not quite right. Every now and then you notice a member of the opposite sex slinking out the back door. But weren't parietals over three hours ago? Finally outside, you notice that the temperature has dropped at least ten degrees and since we are in Mobile, its most likely raining. Whatever the reason or predictament, everyone will try to blame someone else tomorrow.

B is for Beer . . .

For those of you who have been here long enough, you have probably noticed that a student function is nothing without the running tapper. A can of Bud becomes an everyday item after a student has made it through the orientation week.

C is for the Chapel . . .

Do you know what the inside looks like?

G is for GDI's . . .

The largest organization on the campus. You don't have to rush or go through hell night, and there aren't any dues. It's a well known fact at Spring Hill College that if you aren't a GDI you have no social life at all and might as well stay home with a good book.

H is for Housing . . .

Assumption, Toolen, O'Leary, Mobile or Walsh, anyway you look at it they are all about the same. . . . Overcrowded. But seriously, they do have their advantages. For those of you who would like central location there is always Assumption for your best bet. Then there is always the impenetrable Toolen at the front of campus. For the more elite and practical minded, spatious, soundproof, and dry O'Leary with its private beach should suit you just fine. For all the comforts of home, you could move into the newly constructed ultramodern Mobile Hall. But for the broadest outlook on life, there is Walsh, the highest building on campus overlooking the handsome maintenance shack.

D is for Dating . . .

Everyone talks about it but very few do it on a regular basis. Many people talk about it as though it were a disease acquired at SHC but we have discovered that it is a nationwide affliction. The only thing unique to SHC is that once you have been seen with a member of the opposite sex more than twice, you are labelled a campus couple.

I is for Campus Insecurity . . .

We must commend these brave crime fighters chasing down water balloon throwers in their speedy golf carts and making numerous arrests on illegally parked cars (who always resist arrest). All these men are graduates of the James Bond Double Naught spy school and are highly trained in the art of turning off lights and locking up doors.

J is for Jesuits . . .

Yes folks believe it or not this is a Jesuit run Institution. You can usually spot them wearing a starched white collar and all black attire . . . fashions by Gucci.

L is for Louie . . .

Brother Landry's side kick. There is rumor that Louie will be offered an important position in the administration next year, probably treeing squirrels.

M is for Morrisons . . .

Plop, Plop, Fizz, Fizz, oh what a relief it is??

N is for Nicotine fits . . .

Whether you live in a dorm or not, you can always spot a smoker late at night when he's out of cigarettes and starting to have withdrawal pains . . . Yes, the Nicotine Fit strikes again.

O is for the Oak Trees . . .

As if Spring Hill didn't already have enough they allow the Junior Misses to plant a new one every year behind the Library. Well at least when all the teachers retire, they will have a place to sit in their rocking chairs and waste the rest of their lives . . . The Live Oak Forest.

P is for Pot . . .

It used to be something that you cooked your brownies in, now it's something that you cook in your brownies.

Q is for the Quarter Note . . .

This is the Torch's dedication to Greta who has kept many an SHC student happy after the campus events have died down for the night.

R is for Rain, Rain and More Rain . . .

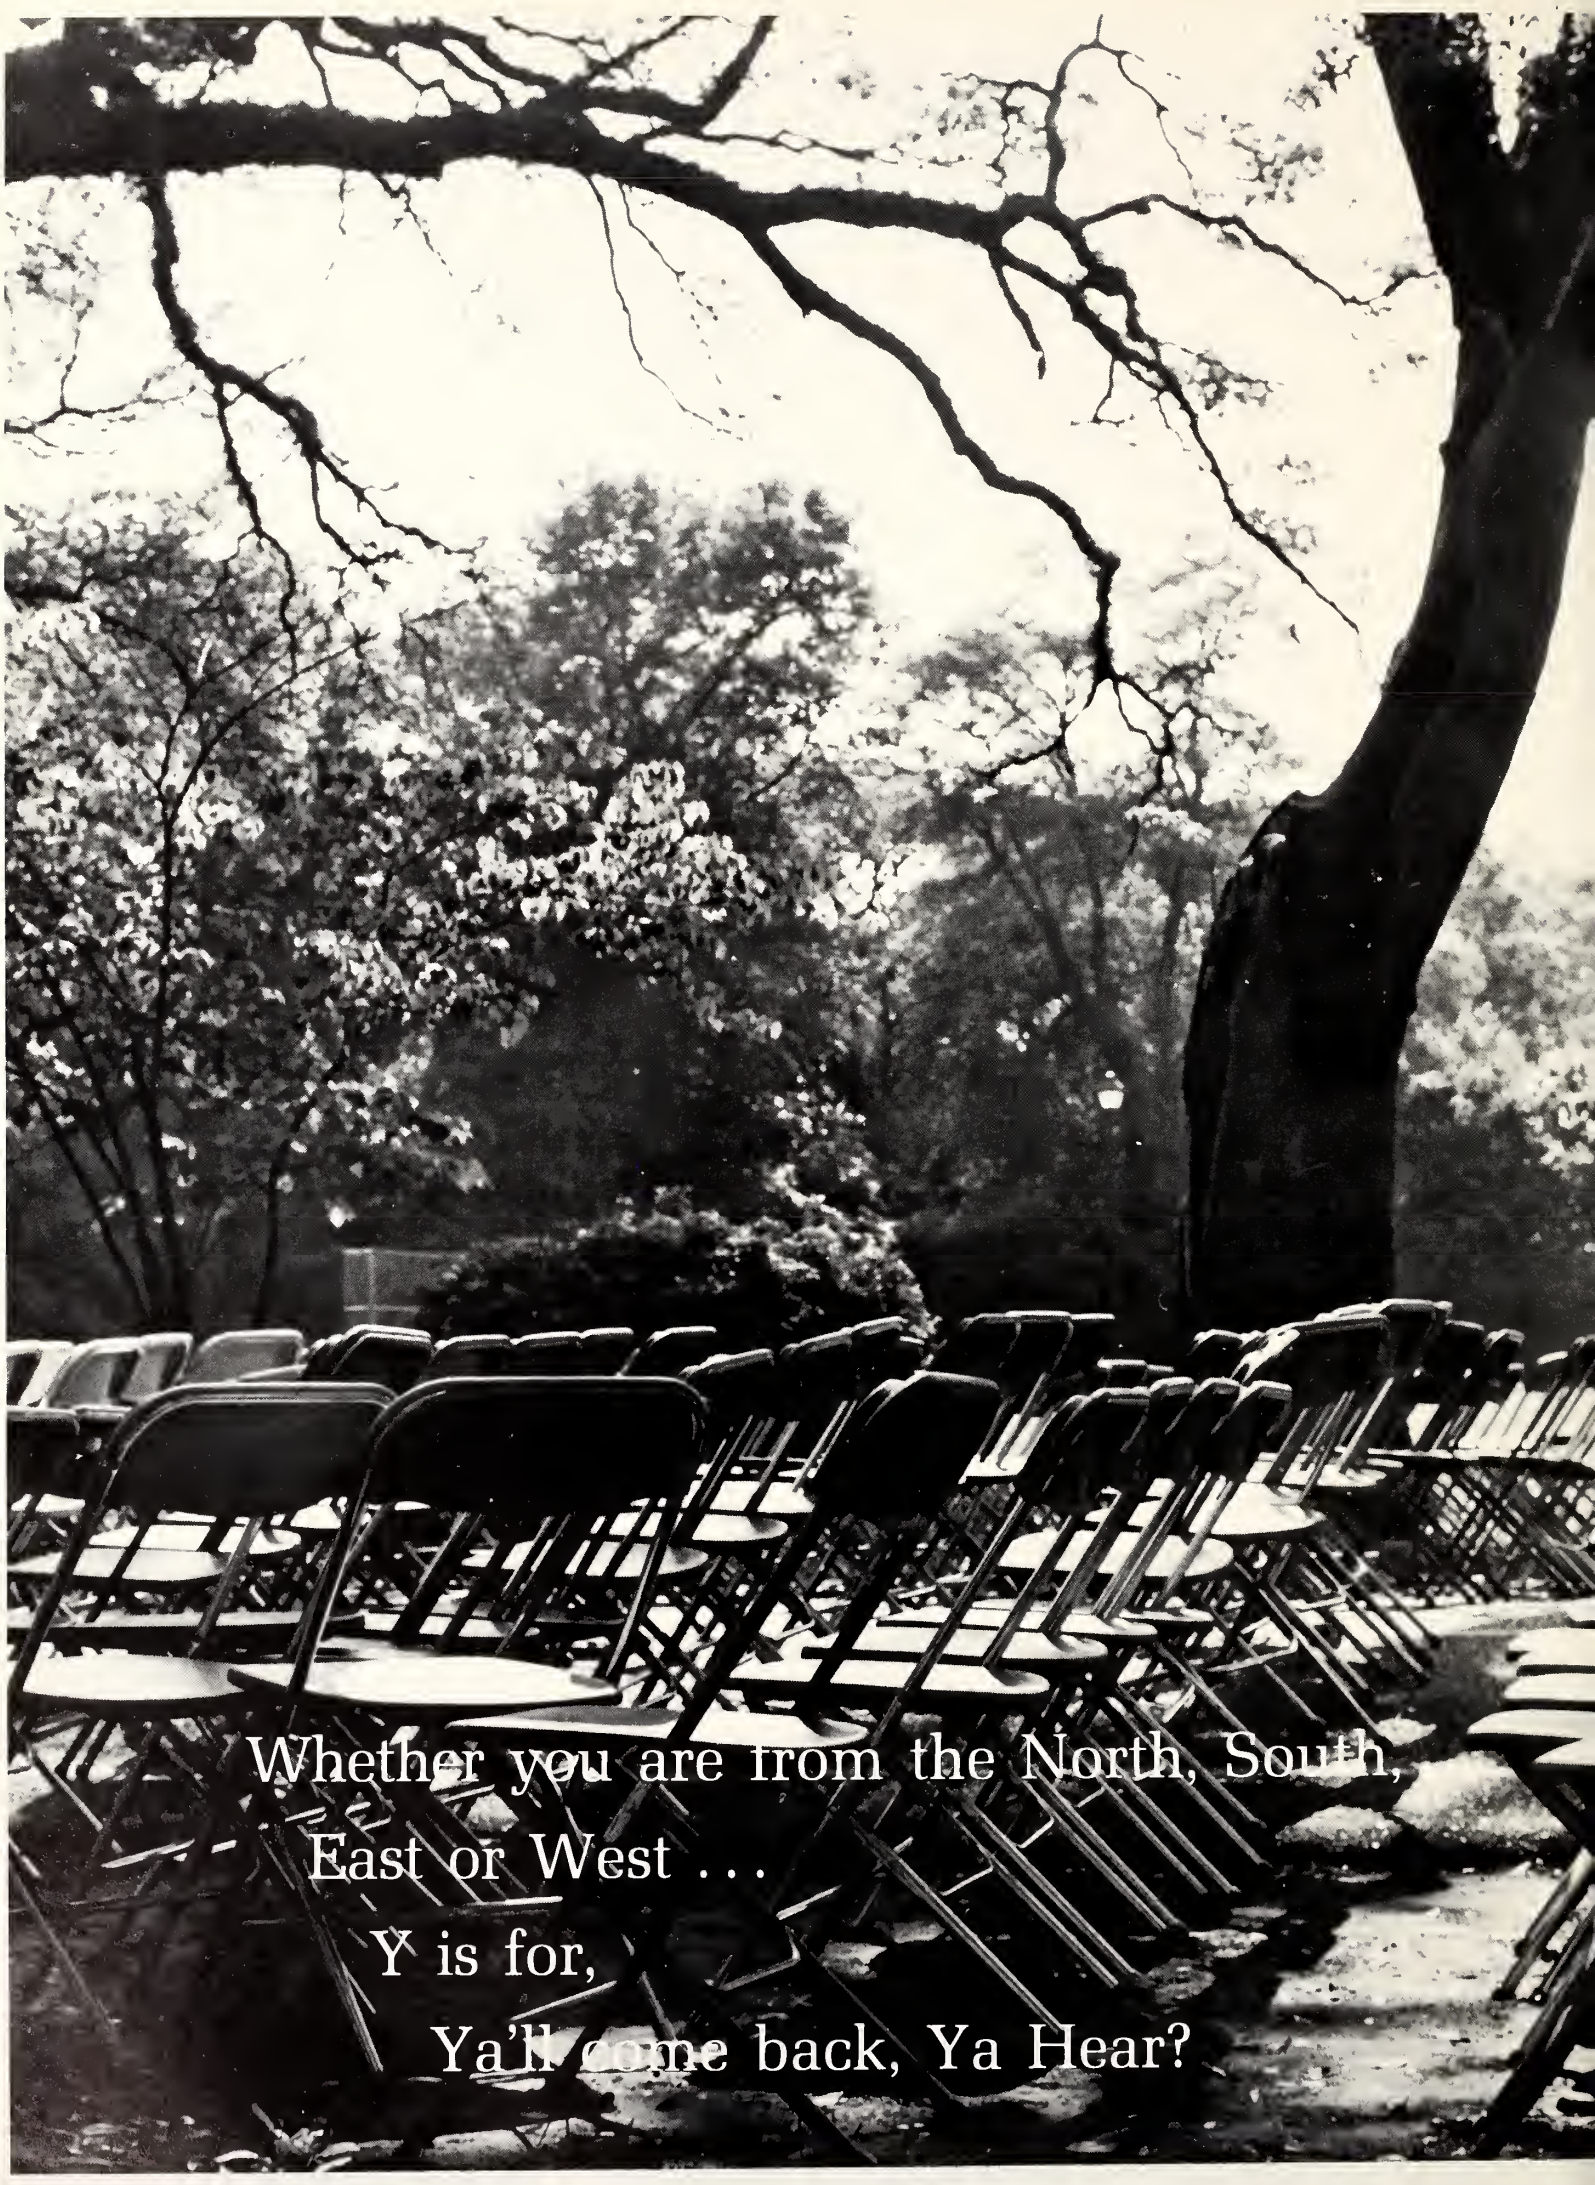
Required gear at Spring Hill College is a canoe, a wet suit and other essential deep sea diving gear. Whether you say heart of Dixie or the heart of the Monsoon season, you're right.

S is for Station Two . . .

Many thought it has disappeared for good, but low and behold, the couches reappeared for a few weeks in April, and the guys began judging the local sights once more. But soon Station Two was disbanned once more. Many students will agree that Station Two was really only for people who had no room to talk.

T is for Torch . . .

Like a Torch upon the hilltop, blazing in the night, Stands our noble alma mater, ever blazing forth the light, Hail to thee Spring Hill.



Whether you are from the North, South,
East or West ...
Y is for,
Ya'll come back, Ya Hear?
